

News Tracker Application

TEAM ID:PNT2022TMID46931

The screenshot displays the IBM Cloud Clusters management interface. At the top, the navigation bar includes the IBM Cloud logo, a search bar, and user information. The main header shows the cluster name 'mycluster-free' with a 'Normal' status and a warning that it 'Expires in 30 days'. A sidebar on the left lists navigation options: Overview (selected), Worker nodes, Worker pools, and DevOps (marked as 'New').

The main content area features a warning banner about the 30-day expiration. Below this, four status cards are displayed: Node status (1 of 1, Normal), Add-on status (0 of 0, Normal), Master status (Normal), and Ingress status (Healthy). Each card includes a 'Details' link. A 'Kubernetes dashboard' button is also present.

The 'Details' section provides cluster metadata in a grid:

Cluster ID	Version	Infrastructure	Zones
cds9aa1f0ck8op7aekpg	1.24.8_1544	Classic	Milan 01

Created	Resource group	Image security enforcement
19/11/2022, 14:04	Default	<button>Enable</button>

The 'Node health' section at the bottom shows '1 total nodes' with a green progress bar. A link for 'Worker node details' is available on the right.
